

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Dear Sir,

We do not want to pay more for my telephone service! We urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

We are retired and use our wireless phone for safety, security and convenience. We don't want to lose these benefits so that businesses and high volume residential users can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Richard Miller 5863 Free Union Rd Free Union. VA 22040

Sincerely,

Richard Miller
